

Backyard Chicken Coops

Backyard Chicken Coops is an informative how-to documentary both for people interested in this new trend in small scale agriculture, and for those looking to start raising chickens of their own.

Imagine being able to pick up farm fresh eggs from your backyard! For some, it's no longer just a fantasy. Chicken cooping has taken off in backyards all over the country, not only bringing food production closer to home, but enlightening lives as charming, quirky pets!

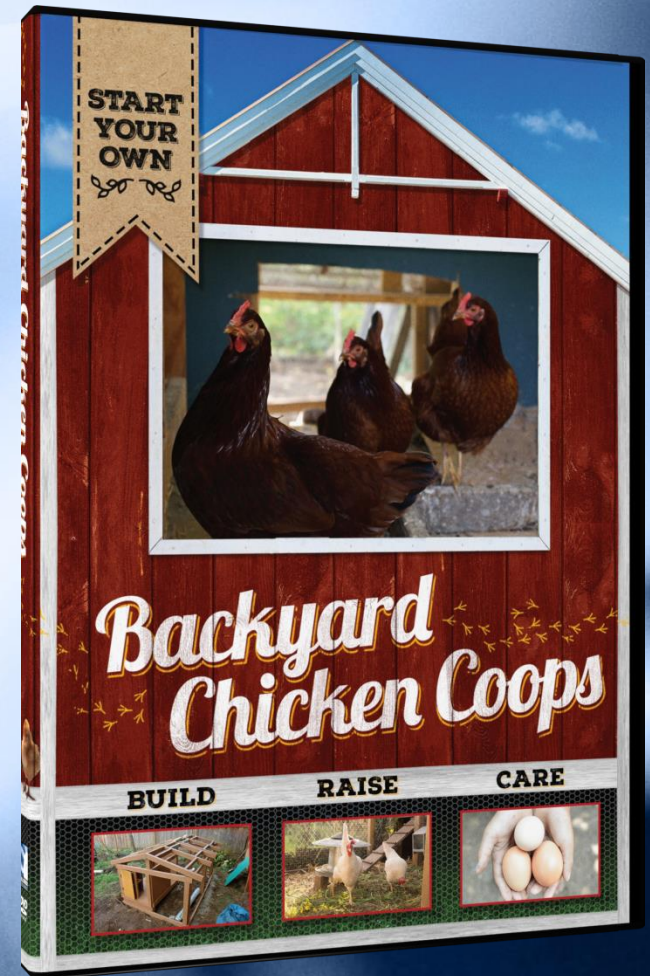

But how does one get started raising chickens? In this how-to documentary, you'll learn step by step how to get started with raising chickens of your very own, covering topics such as:

- Local ordinances
- Planning and constructing a coop
- Selecting and purchasing chickens
- Raising chicks and caring for chickens
- Long term care and health concerns

Target Audience: Urban Millennials, Hobby Farmers

Key selling points:

- Popular trend for fresh food enthusiasts
- Such topics featured in popular publications including *Home & Garden Magazine* and *Williams-Sonoma*.
