

Short Synopsis:

Blackout- All it takes is a glitch in the system of our lives to expose our deepest fears. What happens then? The answer comes in shock waves when an unprecedented conspiracy pitches the West Coast into total darkness.

Meteor- Two massive rocks, tumbling debris older than the solar system itself, collide in space. The course has been altered. The target is Earth.

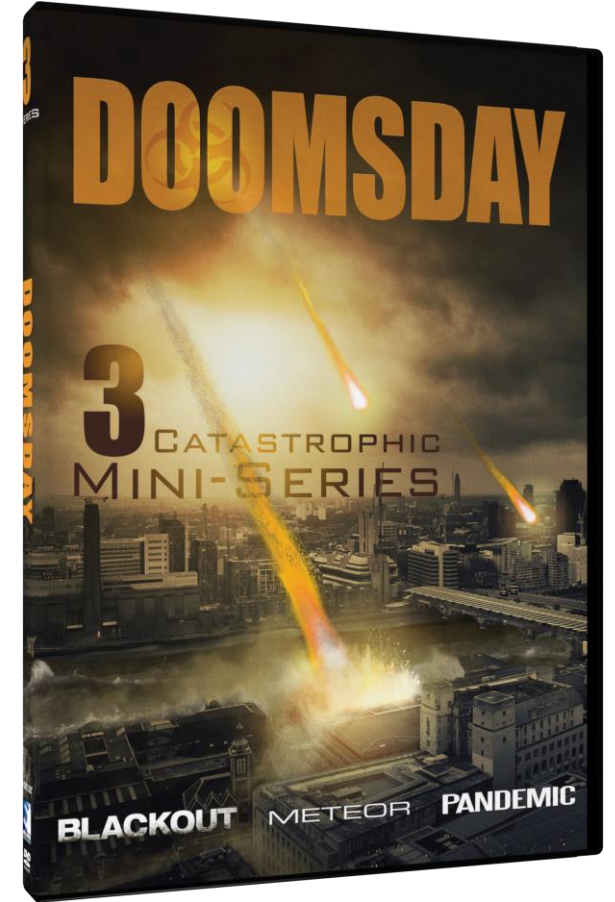

Pandemic- What happens when the deadly strain of an unknown virus multiplies second by second, person by person? What happens when an entire city is put under a government sanctioned quarantine? What happens when the source of the virus is as elusive as the cure? What happens is a Pandemic.
