

Talk to the Animals – Friends for Life!

Synopsis:

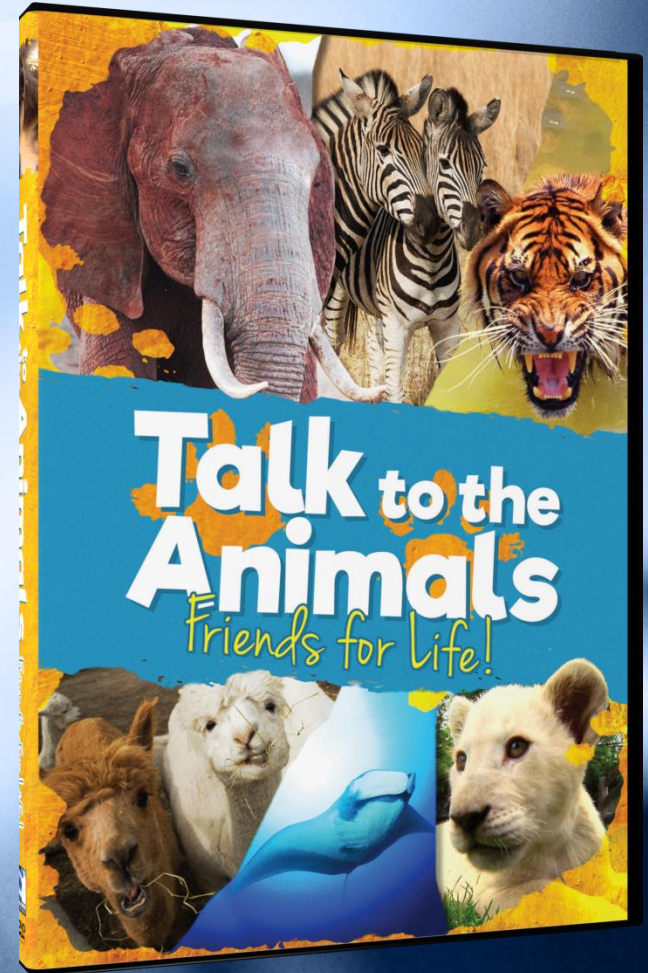

Talk to the Animals is an exciting new lifestyle series delivering eclectic content around one central theme: the incredible relationships between humans and animals. Hosted by Nicky Buckley and featuring veterinarian Dr. Chris Brown, *Talk to the Animals* delivers both fun and important information about not only furry domestic friends, but also the exotic, the endangered and the downright dangerous. The talented and passionate team highlight common pet behavioral concerns providing viewers with practical and easy solutions to help assist in training and caring for their beloved pets. From adorable puppies to dangerous snakes this series is sure to become a family favorite!

Target Audience: National Geographic fans, Animal lovers

Key selling points:

- Premiered in Australia in 2006 and aired on Discovery's Animal Planet from 2007-2014
- 10 episodes included in the set
- Dr. Chris Brown is currently seen every Saturday morning on CBS' *Dr. Chris: Pet Vet*
- Similar to *Jack Hanna's Wild Countdown* which currently airs on ABC
