

Synopsis:

A group of kids on the run from evil scientists, a forbidden wasteland populated by bloodthirsty mutants and a family haunted by mysterious electronic pulses are just a few of the totally 80s tropes in this undeniably strange sci-fi/horror movie collection. With killer lineup of talent including **Liam Neeson, Molly Ringwald, Mark Hamill, Joey Lawrence, Ben Kingsley, Karen Black, F. Murray Abraham, Bill Paxton** and countless others, this 11-Movie Collection is one that you need to see to believe.
