

**Short Synopsis:**

Two inspiring feature films are now available together in this dog-loving, Dove-Approved double feature.

**Footprints**

Footprints is based on the true story of a man who finds the healing power of love only after he lost everything he had valued and given up, a story of a dog who learned to trust and serve only after she'd been abused and discarded as worthless, and a journey the two of them took that neither knew would bring them together, and heal them.

**Friends for Life**

It is a story that will touch your heart. Big city attorney Jim Crawford had won most of the battles in his life, but he couldn't win the battle against his wife's illness. Devastated and alone, he is left to face a lonely future. But suddenly, an unexpected twist of fate (or perhaps even an angel) leads Jim to discover four orphaned wolf pups who face certain death unless he takes them in. Unprepared for the task, but unwilling to see them suffer, he takes them into his care and keeping. It is a daunting task with unintended...sometimes hilarious consequences. As the wolf pups grow, what Jim doesn't anticipate is the way in which his four beloved friends repay his love...in a surprising and courageous way.
