

Short Synopsis:

Blast Off With This Breathtaking Voyage To the International Space Station

SPACE STATION is the first cinematic journey to the International Space Station (ISS), where audiences can experience for themselves life in zero gravity aboard the new station.

Tom Cruise narrates this fascinating look at the high-flying laboratory where today’s space heroes develop technologies to make possible future voyages to Mars and provide solutions to earthbound problems!

Critic Quotes/Reviews: “Space Station captures the point of view of the space travelers, conveying a sense of awesome mystery and unlimited possibility.!” – Chicago Tribune

Target Audience: Fans of *A Beautiful Planet*, *Blue Planet*, *Apollo 11*

Notable Cast/Crew: Narrated by Tom Cruise
